

eZ-AXIS

T-800 Single Axis Drivebox

eZ Hoist AUTOMATION MADE EASY

zfx flying effects
www.zxflying.com

5HP variable frequency drive
That's 3.7kW for metric speakers

Rack mountable

Dual channel, self monitoring,
SIL:3 Estop system

Built in port for advanced
local controls and limit bypass
via pendant

Works with both TTL
incremental and SSI absolute
encoders.

Works with the Raynok motion
control system

Local controls with removable
key activation

Not only does it look cool
but we keep it cool with dual
cooling fans.
